according to the trend of the time closely.

Once select our Google Professional Machine Learning Engineer test dumps, you will **Accurate Professional-Machine-Learning-Engineer Answers** not only save time and money, but also help you pass test successfully, Just believe us!

NEW QUESTION: 1
Which of the following is false concerning foreign currency bid-ask spreads?
A. Longer term contracts tend to have higher spreads.
B. An anticipated change in interest rates is not likely to affect bid-ask spreads.
C. If a currency is heavily traded, spreads tend to be lower.
Answer: B
Explanation:
Foreign currency spreads vary according to market conditions, including supply and demand for the currency, information availability, expected changes in government policy or interest rates, whether the dealer has excess supply of a currency, trading volume and length of the foreign exchange contract.

NEW QUESTION: 2
Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.
When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.
Username and password

Use the following login credentials as needed:
To enter your password, place your cursor in the Enter password box and click on the password below.
Username: Contoso/Administrator

Password: Passw0rd!

You need to create a file named File1.txt in a folder named Folder1 on the C drive of Client2. You need to ensure that a user named User1 can read the contents of File1.txt. The solution must prevent User1 from modifying the file.
To complete this task, sign in to Client2 and perform the required action.
Answer:
Explanation:
See explanation below.
After creating File1.txt in Folder1, right-click the file and select Properties.
Access the Security tab, click Disable inheritance
Click on Remove all inherited permissions from this object, click Apply, and select Yes in the dialog box that appears.
Click OK
Back on the Security tab select Edit to change permissions.
Click Add, then enter User1 in the Enter the object names to select section.
Click Check Names, and then click OK.
Check only the Read box in the Allow column.
Click apply, Ok, and OK
