As long as you pay at our platform, we will deliver the relevant 5V0-91.20 test dumps within 5-10 minutes, You can definitely be out of the ordinary with the help of our renewal version of our 5V0-91.20 training materials available during the year.

Our pass rate is high to 98.9% and the similarity percentage between our 5V0-91.20 installing and configuring VMware Carbon Black EndPoint Protection 2021 pdf study guide and real exam is 90% based on our seven-year educating experience.

If you study with our 5V0-91.20 exam questions, then you are better than others, and of course you will get more opportunities.

**NEW QUESTION: 1**

You are backing up a server with a 1 Gbps link and a latency of 2 ms. Which two statements about the backup are true? (Choose two.)

- A. The default TCP receive window size is the limiting factor.
- B. The bandwidth delay product is 2 Mb.
- C. The default TCP send window size is the limiting factor.
- D. The bandwidth delay product is 500 Mb.
- E. The bandwidth delay product is 50 Mb.

**Answer: A,B**

Explanation:

1 Gbps is the same as 1000 Mbps, and  $1000\text{Mb} \times .0002 = 2\text{ Mbps}$ . With TCP based data transfers, the receive window is always the limiting factor, as the sender is generally able to send traffic at line rate, but then must wait for the acknowledgements to send more data.

**NEW QUESTION: 2**
