NEW QUESTION: 1
Which statement is true regarding syslog on Junos devices?
A. By default, the information is stored in a file named events.
B. Only the message severity level must be configured.
C. You can configure the router to send log messages to the console.
D. No logging is enabled by default.
Answer: C

NEW QUESTION: 2
Universal Containers (UC) has created a custom Invoice object. Standard sales users at UC can see the records in search layout, but when they click to view the detail, only record name, created date, and last modified date are shown. When the system admin accesses it, he or she sees the full record detail with many more data fields.
What is the likely cause of this issue?
A. Org-wide sharing settings have been set to Private and need to be adjusted to Public Read/Write.
B. Sales users profile does not have access to the remaining fields.
C. A role-based sharing is missing and should be added for the sales user's role to grant access to the fields.
D. Page layout assigned to sales user profile has only read-only access to the fields.
Answer: B

NEW QUESTION: 3
You're troubleshooting a Mac. Which is a valid reason for shutting down AND THEN starting up a Mac instead of selecting Restart from the Apple menu?
A. Mac does a full POST on startup only after a shutdown.
B. Mac archives errors from the session to the log only during a shutdown.
C. Mac loads a clean user session on startup only after a shutdown.
D. Mac performs disk checks on startup only after a shutdown.
Answer: A
