NEW QUESTION: 1
An agile development team decides to hire a tester who has always workeD.
-
in independent test teams, reporting the problems found in a defect tracking system
-
in safety-critical projects, with a stronger focus on the

quality of the product than on time and budget.
This agile team is focused on short-term goals to get the product released on time and within budget.
Which of the following answers would you expect to be most likely true in this scenario?
K2 1 credit
A. The tester's mission could be to verify adherence to requirements, instead of reporting formally the problems in a defect tracking system
B. Agile teams like the presence of a tester in their teams and the tester will be able to adapt to the new context without any issue
C. The tester can continue to report the problems found in a defect tracking system and be more focused on the quality than on time and budget constraints
D. The developers will immediately follow the guidelines described by the tester
Answer: A
