NEW QUESTION: 2

What are the three benefits of Oracle Fusion Applications using a Lightweight Directory Access Protocol (LDAP) system?

- A. enforces the principle of least privilege
- B. uniquely identifies a single person
- C. extends the database concept of a grant to applications
- D. allows principles of assured revocation to be more rigorously enforced
- E. segregates duties to be more rigorously enforced

Answer: A,D,E

Explanation:

Oracle Fusion Applications applies the following standard security principles:

*Least privilege (A)

Oracle Fusion Applications roles carry only required privileges. Application roles define duties that entitle access to only the functions and data necessary for performing the defined tasks of that duty.

*Segregation of duties (B)

Oracle Fusion Applications checks duty roles for segregation of duties policy violations measured against content and the risks defined in the Oracle Application Access Controls Governor (AACG)

and against content according to best available security guidelines. User and role provisioning respects the segregation of duties policies.

*Containment and no write down

*Transparency

*Assured revocation (C)

Revoking one security policy revokes all implementations of that policy across all tools in production.

*Defense in depth

E: The process Retrieve Latest LDAP Changes sends to Oracle Fusion HCM among other items:
