#### **NEW QUESTION: 1**

Click the Exhibit button

You work for the regional Internet service provider shown in the exhibit. You have a partial BGP table and are receiving a 10.100/16 route from your upstream ISP. You have been asked to configure a default route that can be sent to your downstream customer. This route should forward customer traffic toward your upstream Tier 1 ISP as long as the 10.100/16 route is present. What would accomplish this goal?

**A.** Create and announce a static default route with a next-hop of discard

- B. Create and announce a generated default route
- C. Create and announce a static default route with a next-hop of reject
- D. Create and announce an aggregate default route
- E. Create an advertise-map with exist-map

**Answer: E**

Explanation:
