Answer: B

Explanation:

The most probable cause is that you have not allowed the Lambda functions to have the appropriate permissions on the S3 bucket to make the relevant changes.

Option A is invalid because this is more of a permission instead of a configuration rule issue.

Option C is invalid because changing the language will not be the core solution.

Option D is invalid because you don't necessarily need to use the API gateway service For more information on accessing resources from a Lambda function, please refer to below URL <https://docs.aws.amazon.com/lambda/latest/ds/accessing-resources.html>

The correct answer is: The AWS Lambda function does not have appropriate permissions for the bucket Submit your Feedback/Queries to our Experts

NEW QUESTION: 3

Which nodes can be used to replace missing data with valid values? (Choose two.)

- A. Distribution node
- B. Data Audit node
- C. Filter node
- D. Filler node

Answer: B,D
